

Activities for the Silly Stork Family Story

The Silly Stork family liked to sing. Have each student write down their first name, and 2 or 3 of their favorite songs. It can be a hymn, a round, or a silly song. Also have them write down a few of their favorite things to do and find computer pictures of them.

Make a document with the first name of every student. After that, list their favorite songs and pictures of their favorite things. Email that document. Email address coming soon (I'm still working on that).

If students would like to write a story about birds, that is another possible activity. If they like to draw, they can draw a picture of their favorite birds. Both the stories and pictures could go on a bulletin board.
